We welcome your feedback, suggestions, and ideas on how we can make the ChuChu TV Video application even better for Your Child and You!Developed by ChuChu TV Studios LLP - Video Language preference can now be customized easily from the language menu- Bug fixes and performance enhancements Daughter loves Chu Chu TV, so I paid 30.00 for the year subscription so we could watch videos offline. Minor things I wish would be different include play buttons on videos (I wish you could just tap anywhere on video to play/pause) and I do not like the how the brightness changes when you swipe up/down on the video. My daughter hits it sometimes and makes the video too dark. The app doesn't really give a lot of options and it is repetitive. I have tried contacting developers to cancel subscription BUT have not received any response. Also, there's no options underfed management of sub riot link to cancel. It only gives you the option to change the type of subscription (monthly, quarterly, annually etc). So now, I get billed every time even when app is no longer on my kids iPads :( My kids have been watching these cartoons for years and I just saw your show pushing vaccines on kids. Shame on you! You know kids watch these videos by themselves and you are trying to propagandize our most vulnerable with unproven information. Parents should not have to answer questions about medical procedures when their kids watch cartoons. We will never watch again. Full Access - Half Yearly The developer, CHUCHU TV STUDIOS, indicated that the app's privacy practices may include handling of data as described below.
